

ADVANCED MOBILITY SYSTEMS

 Sta-Rite™ Accessories and Hardware are designed to “Stay Right” where you position them.

Sta-Rite™ has always been about allowing you to put accessories and hardware just where you want it, and knowing it will stay there until you are ready to move it.

The interior surface of the clamps is serrated to enhance gripping and minimize slippage. As well, set screws provide secondary gripping and minimize twisting. This combination is what makes it Sta-Rite™.
